Teaching and Learning Teaching and learning are vital processes in survival as they comprise the very foundations of growth. Both of these methods are necessary in achieving development by seeking to actualize significant changes in behaviors. Equally, they have various styles and theories that guide the education system. They are also essentially interconnected in a way that you have to learn something before you can actually teach it and that the act of teaching can make you learn something. Difference Between Teaching and Learning Brother Wada: Learning does not happen right in the classroom sometimes. Sometimes it happens outside. When I was learning about the Church, the missionaries would teach me, and a week later I thought about it and said, "This is what it is." So we do not need to assume that the exact learning needs to happen at that moment. Teaching and Learning in the Church Definitely not a
